

Specialty Tier Drug List

Kaiser Permanente utilizes a list of medications that are considered to be specialty drugs. Specialty drugs include self-administered injectables, medications that are typically high cost or medications that require special dispensing and/or monitoring. Some prescription drug plans have a different cost share for specialty drugs. The details of your prescription drug plan can be found in your *Evidence of Coverage* or *Certificate of Insurance*.

Kaiser Permanente utilizes drug formularies. A drug formulary includes the list of prescription drugs that are preferred and have been approved for our Members. Coverage under your prescription drug plan is determined by the drug formulary; however, many drug plans have specific exclusions, copays or coinsurances that are not reflected in the drug formularies. The drug formularies can be found at **kp.org**.
